

Do you know about this K–12 Scholarship in Florida?

Step-Up-For-Students is a nonprofit organization that helps administer the Florida Tax Credit (FTC). The Scholarship is awarded on a first-come, first-served basis and empower families to customize their children's education.

How the Income-Based Scholarship Works

More than 680,000 scholarships have been provided to low-income Florida students in grades K-12 since 2002. Could your child be next?

In 2001, the Florida Legislature created the income-based Florida Tax Credit Scholarship Program to assure that low-income children have more learning options. The scholarships are based on financial need, not how well your child does in school. Families may choose between financial assistance toward private school tuition and fees, or with transportation costs to attend a public school in another district.

Both the private school scholarship and the transportation scholarship have the same eligibility and application process.

Applications are processed in the order they are received (including all supporting documentation) and scholarships are awarded with priority given to renewal families followed by new families with the greatest financial need. Scholarships can be transferred to other eligible schools if the student moves within the state, or simply wants to attend a different Step Up partner school.

Please note, checks are sent directly to the school in which the enrolled child is attending, and are never sent directly to any individuals.
